

Information on Sending Account Opening Documents to Deutsche Bank

When you intend to open a blocked account, the German Embassy Islamabad and the German Consulate General Karachi will be involved by attesting your passport copy and your signatures in the account opening form.

It is your duty as Deutsche Bank's customer to completely prepare the documents required by Deutsche Bank and to bear all costs.

In order to ensure a successful delivery of the documents to Deutsche Bank, you are requested to buy a prepaid envelope from an internationally operating courier service such as UPS, DHL, FedEx etc. On the envelope the sender including your customer number and the following address need to be specified:

Deutsche Bank
Privat- und Geschäftskunden AG
Alter Wall 53
20457 Hamburg
Germany

This open envelope needs to be presented to the German Embassy / Consulate General – along with the complete account opening documents as required by Deutsche Bank – during the attestation appointment so the employee of the Embassy / Consulate General can close it in your presence.

The German mission cannot be held responsible for compiling the correct documents nor for any loss or damage or the timely arrival of the shipment.

For up-to-date information (especially the current application form), please check www.deutschebank.de and www.pakistan.diplo.de one or two days before your appointment!

Please also note:

- Printouts of the account opening forms with a large field reading “ungültig” are invalid and cannot be sent to Germany. The remark “ungültig” usually means that one required field has not been filled out correctly or not at all
- Photocopies of your passport picture page and pages with your signature should be in black-and-white, not in color
